

Hard courts require shoes with quality durability and comfort

Clay (En Tout Cas) courts require herringbone tread, clay resistant upper and less durability

- Try Clay models if primary surface

## Nike Air Zoom Vapor X

Best for: Narrow

Price: \$220

Weight: 390g

- Heavily endorsed and popular on market
- Ideal for those aiming on high performance output, breathability and lightweight
- [Babolat Jet Mach II](#) is solid alternative lightweight option (302g)

## Asics Gel Resolution 8

Best for: All Rounder

Price: \$220

Weight: 405g

Pitch: 10mm

- Very popular and reliable shoe recommended and worn by several pro players
- Great all-rounder in terms of stability, comfort, and durability
- [Babolat Propulse Fury](#) is an alternative all rounder

## New Balance Fresh Foam LAV

Best for: Cushioning

Price: \$220

Weight: 420g

Pitch: 12mm

- Offers supreme bounce and cushioning
- Knit stitched upper for breathability
- A narrower fitting shoe, does come in wide
- Lacks somewhat in durability, but has warranty

## Asics Court FF 2

Best for: Hard Court

Price: \$260

Weight: 387g

Pitch: 9mm

- *Best for this season*
- Mono sock design to secure foot and give greater feel to the court
- Extra-durable AHAR outsole for hard court
- Synthetic upper offers stability but lacks breathability, [Court FF 1](#) is softer

## K-Swiss Hypercourt Express 2

Best for: Width

Price: \$220

Weight: 370g

- The ideal shoe and brand for wide footed players
- Added Surgelite to midsole for extra cushioning
- Re-engineered seamless upper that feels firmer around the foot
- [Nike Cage](#) or [Yonex](#) are also well suited for wider feet

## Mizuno Wave Exceed Tour 4 AC

Best for: Light/stable

Price: \$220

Weight: 340g

- High end midsole energy dispersion technology; feels like a runner
- Light, fast, durable, and stable
- Textile synthetic upper may need time to break in
- [Adidas Adizero Ubersonic 4](#) is better for lightweight but lacks durability
